Project Design Phase
Problem – Solution Fit Template

Date	21 February 2026
Team ID	LTVIP2026TMIDS69451
Project Name	DocSpot : Seamless Appointment Booking for Health

Problem – Solution Fit Template:

The Problem-Solution Fit simply means that you have found a problem with your customer and that the solution you have realized for it actually solves the customer's problem. It helps entrepreneurs, marketers and corporate innovators identify behavioral patterns and recognize what would work and why

Purpose:

- ❑ Solve complex problems in a way that fits the state of your customers.
- ❑ Succeed faster and increase your solution adoption by tapping into existing mediums and channels of behavior.
- ❑ Sharpen your communication and marketing strategy with the right triggers and messaging.
- ❑ Increase touch-points with your company by finding the right problem-behavior fit and building trust by solving frequent annoyances, or urgent or costly problems.
- ❑ **Understand the existing situation in order to improve it for your target group.**

Template:

1. Customer Segments

- Patients / Users who want to book doctor appointments online
- Doctors who want to manage appointments digitally.
- Admin who manages doctor approvals and system monitoring

2. Problem Statemen

- Patients face long waiti
  spitals.
- Difficulty in finding availa
- No proper appointment
- Manual booking causes
- No real-time notification
  status.

3. Existing Alternatives

- Walk-in hospital booking
- Phone call appointment booking
- Manual register system
- Basic hospital websites without tracking

4. Key Pain Points

- Time-consuming proces
- No transparency in appo
- Double booking issues.
- Poor communication bet
  patient
- No centralized data man

4. Key Pain Points

- Time-consuming process
- No transparency in appointment status
- Double booking issues
- Poor communication between doctor and patient
- No centralized data management
